### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 1-17 are pending in the application.

This action is in response to applicants' amendment dated July 6, 2009. Claims 3, 9, 11 and 12 have been amended.

### ***Response to Arguments***

Applicants' arguments filed July 6, 2009 have been fully considered with the following effect:

1. The applicants' amendments and arguments are sufficient to overcome the 35 U.S.C. § 112, second paragraph rejections labeled paragraph 2a), b) and c) in the last office action, which are hereby **withdrawn**.

In view of the amendment dated July 6, 2009, the following new grounds of rejection apply:

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:
  - a. Claim 7 is vague and indefinite in that it is not known what is meant by "aqueous form". It is believed that the applicants intended aqueous solution as set forth in the Specification on page 5, line 17.

- b. Claim 8 is vague and indefinite in that it is not known what is meant by the definition of X where X is halopgen.
- c. Claim 9 is vague and indefinite in that it is not known what is meant by the definition of X where X is nonaflatem.
- d. Claim 9 is vague and indefinite in that it is not known what is meant by the definition of X where X is nonaflatem 2,2,2-trifluoro-ethane-sulfonate. It is believed that a comma is needed to separate the two moieties.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

- 3. Claims 14-17 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over DESHPANDE et al., U.S. Patent Application Publication 2005/0080072. Deshpande teaches the compounds of the instant invention where P is acetyl as shown in example I and benzyl and trityl as shown in claim 20.

***Allowable Subject Matter***

4. Claims 1-6 and 10-13 are allowed. None of the prior art of record or a search in the pertinent art area teaches the process of preparing 11-(4-[2-(2-hydroxyethoxy)ethyl]-1-piperazinyl)-dibenzo[b,f] [1,4]thiazepine of formula (I) as claimed herein.
